

Hopkins Depot to Edina Park via 9-Mile Creek Trail*

We will briefly ride west on the Cedar Lake Trail to connect to the southeast bound 9 Mile Creek Trail. It's a mostly flat ride with a couple short exceptions. You will be treated to hidden scenic creek and marshland views from paved and remarkably smooth wooden bridges along our journey to a park in Edina. Then, ride back to Hopkins. *20-miles (Approx.) roundtrip with an enroute rest-bio break.
